Details About the Research Center

Not a Commercial Data Center

This research center will be **much smaller** than a data center and use **90% less energy.**

Focused on Research and Innovation

U-M and Los Alamos National Laboratory will use the facility to support discoveries in:

- **Medicine and health**
- **Life-saving technology**
- **Sustainability**

An Investment in Michigan

U-M's **$1.25 billion** in funding will create over **300 construction jobs and 200 permanent jobs.**

A Low-Impact Facility

The facility will be fully electric and designed to **limit community impacts** on:

- **Traffic**
- **Noise**

Residential Customer

U-M Is Committed to Being a Responsible Neighbor

As the project moves forward, we will:

- **Build** a dedicated power substation
- **Not affect** local electric service and rates
- **Use water responsibly** and protect local resources
- **Provide ongoing updates** and opportunities for community input

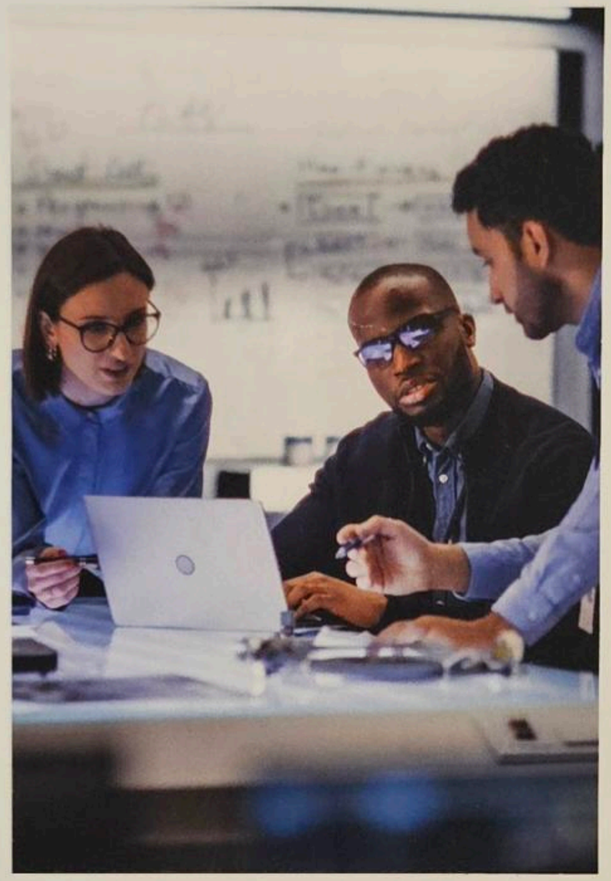
UNIVERSITY OF MICHIGAN

Powering Research.

Advancing Michigan.



This Facility **Will**:

- **Advance** research in medicine, cybersecurity, clean energy and engineering
- **Create** hundreds of jobs
- **Keep** research and innovation talent in Michigan
- **Accelerate** breakthroughs such as new drug discoveries and cancer treatments

This Facility **Will Not**:

- **Operate as** a commercial data center
- **Increase** local utility rates
- **Draw from** the Huron River or local groundwater
- **Create** smoke, odors or significant noise
- **Manufacture** weapons or house nuclear materials

U-M is building a research computing center in Ypsilanti Township to support world-changing innovation and create new jobs and opportunities across the state.

A final site has not been selected. Two Ypsilanti Township locations are currently being evaluated **(see maps to the right)**.

Willow Run complex
